Professional Profile

I am a passionate web developer with over a year of experience in creating and maintaining dynamic and efficient web applications. I graduated from Cornerstone International Community College of Canada, where I obtained a diploma in Web Development. My academic training, along with my practical experience, has enabled me to acquire solid and up-to-date knowledge in various web development technologies and methodologies.

Work Experience

Full-Stack Intern Developer at Project Human City   Oct 2023 - Presente

- **Application Development:** Worked on an innovative project in React for the frontend, creating dynamic and responsive user interfaces that significantly improved the user experience.
- **Robust Backend:** Utilized Node.js and Express to build a robust and efficient backend, handling server logic and ensuring smooth communication between the client and the server.
- **Database Management:** Implemented and managed databases using MongoDB, optimizing performance and ensuring data integrity.
- **API Integration:** Implemented multiple internal APIs to enhance the functionality of the application and enable interaction with external services.
- **Team Collaboration:** Worked closely with other developers, designers, and stakeholders to define requirements, design solutions, and deliver high-quality features.
- **Deployment and Maintenance:** Contributed to the deployment of the application in production environments and provided ongoing support for maintenance and improvement.

Frontend Developer - Volunteer at Phoenix Accounting Services   Feb 2023 - Mayo 2023

- **Interdisciplinary Work:** Collaborated smoothly with interdisciplinary teams, including designers and backend developers, ensuring successful task integration and providing a cohesive application experience for users.
- **Design and Development:** Designed and developed visually appealing user interface components using React and TypeScript, which resulted in increased user engagement and a decrease in usability issues reported by users.
- **Technological Trends:** Studied and adopted emerging technologies in web development, leading to reduced development time for new features and ensuring that the application remains at the forefront of technological trends.

Skills

React - JavaScript - Node.JS - TypeScript - Java - jQuery - MongoDB - Firebase - Tailwind - Bootstrap - C#

Education

Web and Mobile Application Development Diploma
Cornerstone International Community College of Canada   Apr 2022 - Apr 2024

- **Coding Challenges:** Actively participated in coding challenges, competing in various contests and consistently ranking in the top 10% of participants.
- **Team Project Management:** Collaborated with a diverse team to develop a complex web application project, resulting in a fully functional application that received positive feedback from both instructors and peers.
- **Personal Project Publishing:** Designed and independently programmed web applications, including "juan-portfolio-ten.vercel.app," demonstrating practical skills and a commitment to continuous personal development.

Technical Professional in Administrative Processes   Feb 2020 - Dec 2021
Corporación Unificada Nacional de Educación Superior

I apply administration in operational areas to achieve business objectives, optimizing processes and improving productivity with efficiency, effectiveness, and efficacy.
